

Transfer Platform is: 30" x 26"

Platform Height is: 18" from deck

Transfer Steps Max Rise is: 8"

Tread Depth is: 15"

Tread Width is: 30"

Non-Slip Surface

Constructed of Furniture grade PVC with UV rating and hardeners for durability. Some structure areas have double-walled PVC pipe for added support – 600lbs weight capacity. No metal in the system, we use High grade Stainless Steel fasteners including deck anchors.

Virgin Aluminum reinforced skeleton gives the unit needed strength & stability for use in a commercial pool environment.
